Kate

I am currently dealing with a compliance case at the above development site, and note your comments in response to a consultation from Andrew Wood under ref A/132/19/DOC in relation to the discharge of condition 21 (contamination). Items 1 to 3 of condition 21 have been discharged with Item 4 which remains outstanding. Part 4 requires a verification plan to be submitted & approved in writing by the Local Authority on completion of the groundworks as agreed.

The development is progressing & I attach photographs taken yesterday for your information. Therefore, can you define an acceptable level of groundworks & what this may include. The verification plan is due to be submitted next Monday/Tuesday.

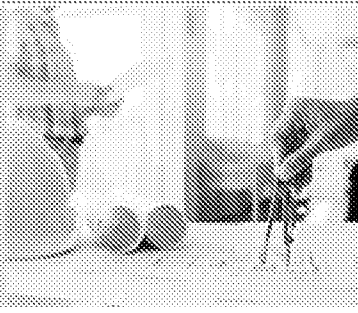

Many thanks  
Lisa
