Dear Peter,

Condition 19 – Protection of existing public water supply main

The onsite 300mm Water main has been located by Subscan Survey. Southern Water's requirements are made in the consultee response to the planning application which states 'No development or new tree planting should be located within 4m either side of the centreline of the 300mm water trunk main and 6 inch water distribution main. No new soakaways should be located within 5m of a public main, all other infrastructure should be protected during the course of construction works' – All these requirements will be met.

The water main location and 8m building and tree exclusion zone are shown on CEP's drainage drawings:

22067/221D
22067/222D
22067/223D
22067/224D
22067/226C

These drawings are contained within e-mail pertinent to condition 6, sent earlier this afternoon.

Regards

Darren
