Dear Peter, many thanks for this. I have read the WSI and I am happy to recommend it to Arun for approval. There is also a contingency under section 4.2 to extend the area of stripping, once it is under way, if archaeological features look as though they will continue beyond the notional edge of investigation set out in the figure at the end of the document. Regards and best wishes, Mark

Hi Mark

Further to your comments regarding the above site, please find attached the Archaeological remediation report for the Barratts scheme to the east of Roundstone Lane, Angmering.

Please could you have a look at the document and advise whether or not the strategy proposed would be acceptable.

Thank you for your assistance to date and I will look forward to receiving your comments on the attached document.

Kind regards,
Peter

Hello Peter,

Please find attached a copy of the Archaeological report for approval.

Matthew Smith is preparing a cost for undertaking the works highlighted pink on the attached with a view to commence on Monday, however Matthew is just double checking availability, so I will let you know more within the hour.

Many Thanks

Darren
