Hi Peter,

That is correct. The designer will be accredited, so the design can be taken on face value.

Kind regards

Paul

Hi Paul

Further to our discussion yesterday, please could you just confirm by return that the submitted statement relating to the condition below is provided by a suitably accredited organisation and therefore the contents within can be relied upon to discharge the condition listed below.

Kind regards,
Peter

Subject: Planning Condition ref: A/137/14/DOC

Hi Paul

I am dealing with the above application, this in part seeks to discharge the following condition which was attached to the approval of A/82/12:

At least 10% of the energy supply of the development shall be secured from decentralised and renewable or low-carbon energy sources. Details and a timetable of how this is to be achieved, including details of physical works on site, shall be submitted to and approved in writing by the local planning authority. The approved details shall be implemented in accordance with the approved timetable and retained as operational thereafter, unless otherwise agreed in writing by the local planning authority.

The applicants have submitted the attached detail to discharge the condition, would you be able to advise whether or not you think it would be suitable to address the requirements of the condition?

Kind regards,
Peter
