Hi Anita,

Hope you're keeping well.

In relation to the outside area, it is noted that occasional extension to opening hours can be permitted via other mechanisms (for example, temporary event notices), however EH cannot support the suggested permanent late opening due to the potential impact on neighbouring residents. The concern is the cumulative effect of the extended hours and potential impact of noise and odour; due to the location, setting and type of premises, there are very few measures that can be taken to mitigate against these elements. The original application does not allow much respite for neighbouring residents.

Even if it were possible to trial later opening for a limited time (for example, six months), I'm not sure whether this would be appropriate due to the current restrictions as the trial wouldn't be representative of 'normal' activity (and I don't even know if that is possible from a planning perspective?!).

As you know, we have to balance the needs of the applicant and the needs of the residents, therefore it is suggested that an extension of hours until 6pm is reasonable and fitting for the setting.

Hope this helps,

Thanks,

Kate.

Hi Kate,

Can you let me have your thoughts on this request?

Would you consider any increase beyond 4pm Sun/BH?

Thanks

Anita

Dear Anita

I note the comment from Environmental Health department about the above application. My concern would be their recommended Sunday/Bank Holiday hours. The bar, when it was open last summer, was busy on Sunday evenings and on the August Bank Holiday too. To restrict the opening on these days to 4pm would be very restrictive to the business and clientele. The temporary seating licence allowing every day till 9am every day was a great success. I wonder if you'd consider the Sunday/Bank Holiday opening until 9 or 10pm as other days. There were no objections whatsoever during these operational hours previously.

Many thanks
Liz
