Hi charlotte,

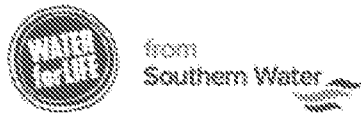

After having a look at the plan, and assuming that you need to connect into our waste water main, to allow flows from a new development, then the S98 route is correct.

Regards,

Duncan Barnes

Subject: FW: Request confirmation that S98 is correct route

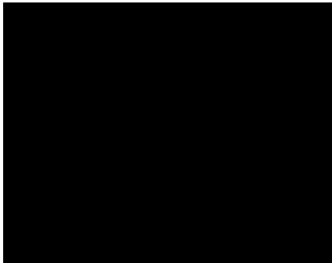

Good morning,

Are either of you able to help with this S98 enquiry – the customer just wants confirmation that they have chosen the correct path?

With kind regards,

Liz Preston

Subject: Request confirmation that S98 is correct route

Dear Developer Services,

We have a Arun District Council planning condition requirement to submit a design that Southern Water approves of for the foul drainage disposal.

The S98 is the route to take, but am aware it will be 12 weeks before we have a design to submit to Arun from Southern Water, therefore I am seeking a one liner email just to confirm back to the Council that we have chosen the correct path.

In terms of sewer, the node we would need to connect into is 7101X- as noted on the map attached. Our site is at the top of the page furthest from the node.

- Please could Southern Water confirm whether the S98 application is the method of achieving Southern Water approval for the sewer disposal for this site.

Kind regards,

Charlotte Smith

Director
