Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:
- Tree species

5. Identification of Tree(s) and Description of Works

- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

T1 - Monterey pine - The large phototropic growing limbs and heavy cones overhang Mr Walkers garden by approximately two thirds, now shading out the rear garden and are on the verge of coming into contact with the property, a second issue is the large cones falling, they are large enough to cause significant harm to Mr Walker and his wife and their Grandchildren that frequent the house
Reduce all limbs overhanging the property by a maximum of 2 metres and remove all pinecones within the catchment area of the rear garden.
Tree is in Tall Trees garden owned by Mr Wiggins (has been spoken to) viewed from Mr Wiggins property there are no limbs on the north side of the tree

6. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please note: If none of the proposed work involves trees covered by a TPO, please answer 'No' to the two questions below

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).

If Yes, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.
