Dear Michael,

Thank you for providing me with copies of the above letters of which I am interested to learn.

I can only comment on the fact that I have asked for the developers to provide greater detail on what I consider to be the potentially sustained adverse noise (including vibration) impact on nearby housing, from use of the High Street (and top of Roundstone Lane) for multiple HGV access to the site during the stated 7 month period, February to September 2021. I would expect such an acoustic report to detail mitigation measures which could be reasonably applied in this case, but this must be to the satisfaction of the Local Planning Authority.

Also, that I have recommended the provision of either a temporary, or permanent access way to the site from Water Lane, as preferable to use of the High Street and northern section of Roundstone Lane as it joins the High Street This largely supports Councillor Oldfield's observations.

I trust that this provides a suitable response, since other matters discussed here are largely outside of my remit. Nevertheless, should I be able to provide any further assistance then please do not hesitate in contacting me again.

Kind regards

Carol
