

Environmental Health Consultation Response

To	Mr S Davis
Date	05-11-2025
Planning Ref	A/159/25/PL
Site Description	Sports Pavilion Decoy Drive Angmering Littlehampton West Sussex BN16 4DN
Date of Application	2025-10-21 00:00:00
Category	Application
Recommendation	No Objection No Objection – with conditions Objection Holding Objection

EH Comments:

I have considered the above application and I would recommend the following conditions should consent be granted.

Conditions Recommended:

CONSHOUR : Hours of working - no CMP

Demolition/construction works shall only take place between 08:00 hours and 18:00 hours (Monday to Friday) and between 08:00 hours and 13:00 hours on Saturday with no activities taking place on Sundays or recognised public holidays.

In addition to these hours of working, the Local Planning Authority may approve in writing a schedule of activities where it is necessary to conduct works outside the hours specified in this condition.

Reason:

To protect the amenity of local residents in accordance with the Arun Local Plan policy QE SP1.

LIGHT04 : Floodlighting - sports stadia

The horizontal luminance levels on the playing surface shall be submitted to and approved in writing by the Local Planning Authority and be no greater than levels specified for the particular sport/activity and for the level of competition, as specified within BS EN 12193:2018 Light and lighting – Sports lighting.

Reason:

In the interests of the amenities of neighbouring light-sensitive development in accordance with Arun Local Plan policy QE DM2.

ENV5 : Unexpected contamination (precautionary condition)

If during development, any visible contaminated or odorous material (for example, asbestos containing material, stained soil, petrol/diesel/solvent odour, underground tanks or associated pipework) not previously identified is found to be present on the site, no further development (unless otherwise expressly agreed in writing with the Local Planning Authority) shall be carried out until it has been fully investigated using suitably qualified, independent consultant(s). The Local Planning Authority must be informed immediately of the nature and degree of the contamination present and a method statement detailing how the unexpected contamination shall be dealt with must be submitted to the Local Planning Authority for approval in writing before being implemented.

If no such contaminated material is identified during the development, a statement to this effect must be submitted in writing to the Local Planning Authority.

Reason:

To protect the amenity of local residents in accordance with the Arun Local Plan policy QE DM4.

LIGHT01 : Lighting scheme

combined EH and Ecology

Prior to the occupation of any part of the development, full details of all new external lighting, including type of light appliance, the height and position of fitting, predicted

illumination levels and light spillage, shall be submitted to and approved in writing by the Local Planning Authority. The scheme should seek to conform with the recommendations of the Institute of Lighting Professionals (ILP) 'Guidance Notes for the Reduction of Obtrusive Light' (GN01:2021) and:

a)

identify those areas/features on site that are particularly sensitive for bats and that are likely to cause disturbance in or around their breeding sites and resting places or along important routes used to access key areas of their territory, for example, for foraging

b)

show how and where external lighting will be installed through provision of appropriate lighting contour plans and technical specifications so that it can be clearly demonstrated that areas to be lit will not disturb or prevent the above species using their territory or having access to their breeding sites and resting places.

All external lighting shall be installed in accordance with the specifications and locations set out in the scheme and maintained thereafter in accordance with the scheme. Under no circumstances should any other external lighting be installed without prior written consent from the Local Planning Authority.

Reason:

In the interests of the amenities of the area, the site's biodiversity (particularly in respect of bats), the interests of minimising crime, the interests of road safety and to minimise unnecessary light spillage outside the development site in accordance with Arun Local Plan policies QE SP1, QE DM2, T SP1 and ENV DM5.

EHN23 : Building services plant (BS4142:2014+A1:2019)

EH - see notes

No internally or externally located plant, machinery equipment or building services plant shall be operated on the site until an assessment of the acoustic impact arising from the operation of all such equipment has been submitted to and approved in writing by the Local Planning Authority. The assessment shall be undertaken in accordance with BS 4142:2014+A1:2019 and shall include a scheme of attenuation measures to mitigate the adverse impacts identified in the acoustic assessment. The scheme shall ensure that the rating level of noise emitted from the proposed building services plant is 5 dB less than the prevailing background sound level (LA90). The scheme as approved by the Local Planning Authority shall be fully installed prior to first operation of the plant and shall be retained as such thereafter. Any agreed attenuation measures shall be permanently maintained in good working condition.

The applicant should review the Planning Noise Advice Document – Sussex, November 2023:

<https://www.arun.gov.uk/download.cfm?doc=docm93jijm4n19846.pdf&ver=24686>.

Reason:

To protect the amenity of local residents in accordance with the Arun Local Plan policy QE DM1.

Hi Simon,

Please find attached EH planning response for the above application..

Kind Regards

Chris White
