

Covering Letter

Firstly may i start by apologising for contravening the planning regulations and assure you it was not intentional, I did phone Arun council prior to construction and was informed the height limit was 2.5m and no more than 4m with a double sided pitched roof, a mis-understanding on my part meant i didn't realise that that if within 2m of the boundary 2.5m was the total limit. I built to 2.2m with a 0.900m double sided pitch roof giving me a total of 3.1m thinking i am well within the limit when in fact i am 0.600m over due to the boundary rule.

Building use

The building is purely to be used as storage and a garden shed, I am registered disabled and can no longer manage getting in and out of the loft so i'm in need of ground level storage, the other half is to replace an existing shed for garden equipment.
