

Pound House Tree Application,

The tree is a Leyland cypress located in the back right corner of Pound House's back garden, adjacent to Roundstone lane. the size of the tree is approximately 25ft in diameter and 80ft tall. we propose to fell the tree due to roots damaging and causing instability to 2 listed flint walls in close proximity with the tree. For this same reason no replanting is proposed. Furthermore, this tree provides low amenity value.
