Comment from Greenspace

The information contained in Soft Landscape sketch plan 200 Rev 01 and further in 'Detailed planting plans 1-3 201, 202, 203 Rev's 01 proposes a well thought out and comprehensive scheme with trees, hedges, native planting, shrubs, grasses and buffer edge. The proposed scheme contains a good mix which will provide softening/screening improving the setting, more so over time as the planting matures. The scheme is adequately detailed with quantities and size at time of planting, providing trees which will add instant impact a species mix across the proposals both deciduous and evergreen which will add good biodiversity benefit to the site.

I would recommend the approval of reserved landscape matters on this application A/166/19/RES following outline consent A/74/18/OUT.
