

Town & Country Planning Act 1990 (as amended)
Town & country Planning (Development Management
Procedure) (England) Order 2015 - Article 5
Application for Outline Consent
DECISION NOTICE

Application Ref: A/142/16/OUT

1 To Addressee

Stiles Harold Williams
 One Jubilee Street
 Brighton
 East Sussex
 BN1 1GE

2 Site Address

Merry England Nursery
 Dappers Lane

 BN16 4EN

3 Description of Development

Outline application with some matters reserved for the demolition of existing buildings & erection of 18 No. dwellings and the provision of pedestrian footpath adjacent to Dappers Lane. This application is a Departure from the Development Plan.

In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to compliance with the following conditions and Section 106 Agreement.

- 1 The permission hereby granted is an outline permission under s92 of the Town and Country Planning Act 1990 (as amended) and an application for the approval of the Local Planning Authority to the following matters must be made not later than the expiration of 3 years beginning with the date of this permission:-

- (a) Layout;
- (b) Appearance; and
- (c) Landscaping.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be begun either before the expiration of 5 years from the date of this permission, or before expiration of 2 years from the date of approval of the last of the reserved matters to be approved, whichever is the later.

Reason: To enable the Local Planning Authority to control the development in detail and to comply with Section 92 of the Town and Country Planning Act 1990 (as amended).

- 3 The development hereby approved shall be carried out in accordance with the following approved plans:

- Location Plan - 0192 Rev B
- Access Plan - 5804/101 Rev A

The below plans are approved in so far as they relate to scale only.

- Proposed Floor Plans - House Type A - dwg. 0192-PL003
- Proposed Sections & Elevations - House Type A - dwg. 0192-PL004
- Proposed Floor Plans - House Type B - dwg. 0192-PL005
- Proposed Sections & Elevations - House Type B - dwg. 0192-PL006
- Proposed Floor Plans - House Type C - dwg. 0192-PL007
- Proposed Sections & Elevations - House Type C - dwg. 0192-PL008
- Proposed Floor Plans - House Type D - dwg. 0192-PL009
- Proposed Sections & Elevations - House Type D - dwg. 0192-PL010
- Proposed Floor Plans - House Type E - dwg. 0192-PL011
- Proposed Sections & Elevations - House Type E - dwg. 0192-PL012

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy GEN7 of the Arun District Local Plan.

- 4 Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.

The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SuDS Manual produced by CIRIA.

Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface drainage scheme once development had commenced.

- 5 Immediately following implementation of the approved SuDS scheme and prior to occupation of any part of the development, the developer/applicant shall provide the local planning authority with as-built drawings of the implemented scheme together with a completion report prepared by an independent engineer that confirms that the scheme was built in accordance with the approved drawing/s and is fit for purpose. There shall be no deviation to the approved scheme other than with the written consent of the Local Planning Authority. The scheme shall thereafter be maintained in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface drainage scheme once development had commenced.

- 6 The development shall not proceed until formal consent has been approved in writing from the Lead Local Flood Authority (WSCC) or its agent (ADC) for the discharge of any flows to watercourses, or the culverting, diversion, infilling or obstruction of any watercourse on the site.

Any discharge to a watercourse must be at a rate no greater than the pre-development run off values.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface drainage scheme once development had commenced.

- 7 Development shall not commence until full details of the maintenance and management of the SuDS system is set out in a site-specific maintenance manual and submitted to, and approved in writing, by the Local Planning Authority. The manual is to include (a) details of financial management of the site including arrangements made in the event that the management company (or any subsequent management company) is no longer able to fulfil its duties; and (b) arrangements for the replacement of major components at the end of the manufacturers recommended design life.

Reason: To ensure the efficient maintenance and on-going operation of the SuDS system and to ensure the best practice in line with guidance set out in 'The SuDS Manual' CIRIA publication ref: C753 Chapter 32 in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface drainage scheme once development had commenced.

- 8 Upon completed construction of the SuDS System but prior to occupation of any part of the scheme, the owner or management company shall either provide the local planning authority with an updated copy of the management manual incorporating any changes as a result of construction/implementation or confirm in writing that no changes are required to the manual.

No further changes shall be made to the approved SuDS Maintenance & Management Plan/Regime including the management company responsible or the financial arrangements between the owners of the dwellings & the management company other than with the written consent of the Local Planning Authority.

The owner or management company shall thereafter strictly adhere to and implement the recommendations contained within the manual to ensure that the system is maintained in perpetuity.

Reason: To ensure the efficient maintenance and on-going operation of the SuDS system and to ensure the best practice in line with guidance set out in 'The SuDS Manual' CIRIA publication ref: C753 Chapter 32 in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan.

- 9 The development layout shall not be agreed until such time that arrangements for the future access and maintenance of any watercourse or culvert (piped watercourse) crossing or abutting the site has been submitted and approved in writing by the Local Planning Authority.

No construction is permitted, which will restrict current and future land owners from undertaking their riparian maintenance responsibilities of any watercourse on or adjacent to the site.

Reason: To ensure that the duties and responsibilities, as required under the Land Drainage Act 1991, and amended by the Flood and Water Management Act 2010, can be fulfilled without additional impediment following the development completion.

- 10 No development shall commence until the vehicular access and footway serving the development has been constructed in accordance with the approved planning drawing. Prior to the implementation of the footway hereby approved full details of its construction shall be submitted to and approved by the Local Planning Authority in consultation with West Sussex County Council.

Reason: In the interests of highway safety and the amenities of the area in accordance with Arun District Local Plan policy GEN7 and the National Planning Policy Framework. It is considered necessary for this to be a pre-commencement condition because the condition seeks to ensure access to the development site does not adversely impact upon the amenity of the area.

- 11 No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to and approved in writing by the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters,

- the anticipated number, frequency and types of vehicles used during construction,
- the method of access and routing of vehicles during construction,
- the parking of vehicles by site operatives and visitors,
- the loading and unloading of plant, materials and waste,
- the storage of plant and materials used in construction of the development,
- the erection and maintenance of security hoarding,
- the provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulation Orders),
- details of public engagement both prior to and during construction works.

Reason: In the interests of highway safety and the amenities of the area in accordance with Arun District Local Plan policy GEN7 and the National Planning Policy Framework. It is considered necessary for this to be a pre-commencement condition because the condition seeks to mitigate the impact of construction.

- 12 No development shall commence until such time as revised plans and details incorporating the recommendations given in the Stage 1 Road Safety Audit and accepted by the Designers Response have been submitted to and approved in writing by the Local Planning Authority in consultation with the Highway Authority.

Reason: In the interests of highway safety and the amenities of the area in accordance with Arun District Local Plan policy GEN7 and the National Planning Policy Framework. It is considered necessary for this to be a pre-commencement condition as it relates to a key element of the proposed development.

- 13 No part of the development shall be first occupied until visibility splays of 2.4 metres by 43 metres have been provided at the proposed site vehicular access onto Dappers Lane in accordance with the approved planning drawings. Once provided the splays shall thereafter be maintained and kept free of all obstructions over a height of 0.6 metre above adjoining carriageway level or as otherwise agreed.

Reason: In the interests of highway safety and the amenities of the area in accordance with Arun District Local Plan policy GEN7 and the National Planning Policy Framework.

- 14 No development including site access, demolition or associated construction activities, shall take place on the site unless and until full details of the mitigation/enhancements identified in Sections 4 and 5 of the Ecological Appraisal as well as a timetable of how these are to be implemented has been submitted to and approved by the Local Planning Authority. These mitigation/enhancements should also include details regarding the;
- Provision of 3 bird boxes and 3 bat boxes on mature trees on-site;
 - Creation of 3 log piles on-site; and
 - Provision of meadow planting on verges in front of the proposed properties.
- The approved details shall be implemented in accordance with the approved timetable and retained as operational thereafter, unless otherwise agreed in writing by the local planning authority.
- Reason: In accordance with Arun District Local Plan policy GEN29 and the National Planning Policy Framework. It is considered necessary for this to be a pre-commencement condition to prevent damage/harm to the ecology of the site.
- 15 The features on the buildings suitable for bat roosting, such as tiles, shall be removed by hand prior to demolition. If a bat is discovered during the demolition process works will stop immediately and a consultant ecologist contacted for further advice.
- Reason: In accordance with Arun District Local Plan policy GEN29 and the National Planning Policy Framework.
- 16 No lighting shall be installed on site until plans showing the type of light appliance, the height and position of fitting, illumination levels and light spillage have been submitted to and approved in writing by the Local Planning Authority. The scheme should also minimise potential impacts to any bats using the trees, hedgerows and buildings by avoiding unnecessary artificial light spill through the use of directional light sources and shielding. The lighting approved shall be installed and shall be maintained in accordance with the approved details.
- Reason: In the interests of the amenities of the area, the site biodiversity (particularly in respect of bats) and to minimise unnecessary light spillage outside the development site in accordance with Policies GEN7, GEN29 & GEN33 of the Arun District Local Plan.

- 17 Prior to any demolition or construction works taking place or the introduction of machinery and plant to the site the following issues must be resolved to the complete satisfaction of Arun District Council :-

A pre-commencement Site Meeting is to take place between the Arun DC Tree Officer and the Arboricultural Consultant representing the site owners - at this meeting all protective fencing will be inspected along with ground protection measures - they will be assessed to verify that they are 'Fit for Purpose' as required under British Standard 5837:2012 and have been erected and positioned exactly as shown on the Tree Protection Plan PJC/3928/16/C Rev 01 02/06/2016 1:500 @ A3.

· A schedule of Site Monitoring/Supervision visits and Reporting Procedures prepared by an Arboricultural Expert will be required and their extent will be agreed on at the site meeting to the satisfaction of the Arun DC Tree Officer.

· If there is deemed to be a need for any Utility Service Route connections to bisect retained tree Root Protection Areas/Zones then prior to their installation a Method Statement prepared by an Arboricultural Expert must be submitted that stipulates how this can be achieved without adverse impact on tree roots. Written approval and confirmation of acceptance of this Methodology must be issued before any works are commenced out on site.

Reason: To comply with BS5837 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their on-going health and vitality is not compromised and they can continue to enhance the landscape and amenity of the area. It is considered necessary for this to be a pre-commencement condition to ensure that the trees on site are not irreversibly harmed in accordance with the NPPF.

- 18 If any root structures with a diameter over 25mm are exposed during the excavation of the foundations for the dwellings hereby approved then these should be retained unless otherwise agreed in writing with the Local Planning Authority. Any removal of roots over 25mm in diameter that has been agreed with the Local Planning Authority shall then be carried out under the supervision of the Council's Arboricultural Officer.

Reason: To ensure the retention and maintenance of trees and vegetation; which is an important feature of the area in accordance with sound arboricultural practice in accordance with the NPPF.

- 19 All demolition & construction works are to be carried out in strict accordance with :- 'PJC Consultancy Arboricultural Impact Statement Report Ref: PJC 3928/16-02- 3rd June 2016' and 'Tree Protection Plan ref: PJC/3928/16/C Rev 01 02/06/2016 1:500 @ A3'.

Reason: To ensure the retention and maintenance of trees and vegetation; which is an important feature of the area in accordance with sound arboricultural practice in accordance with the NPPF.

- 20 The avoidance strategy for hedgehogs identified in the letter dated the '14th October 2016' from 'the ecology partnership' shall be adopted and followed during demolition and construction.

Reason: In accordance with Arun District Local Plan policy GEN29 and the National Planning Policy Framework.

- 21 Prior to the commencement of development approved by this planning permission (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved, in writing, by the local planning authority:

1. A preliminary risk assessment which has identified:

- all previous uses
- potential contaminants associated with those uses
- a conceptual model of the site indicating sources, pathways and receptors
- potentially unacceptable risks arising from contamination at the site.

2. A site investigation scheme, based on (1) to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.

3. The site investigation results and the detailed risk assessment (2) and, based on these, an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.

4. A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Any changes to these components require the express consent of the local planning authority. The scheme shall be implemented as approved.

Where demolition is required 1. and 2. above should be submitted prior to demolition. Parts 3. and 4. can take place post demolition if necessary.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with Arun District Local Plan policy GEN7. This is required to be a pre-commencement condition because these details have to be agreed and in place before any work commences.

- 22 If during development, contamination not previously identified, is found to be present at the site then no further development (unless otherwise agreed in writing with the Local Planning Authority) shall be carried out until the developer has submitted, and obtained written approval from the Local Planning Authority for, an amendment to the remediation strategy detailing how this unsuspected contamination shall be dealt with.

Reason: To ensure that the development complies with approved details in the interests of protection of the environment and prevention of harm to human health in accordance with Arun District Plan policy GEN7.

- 23 Prior to occupation of any part of the permitted development, a verification report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of the remediation shall be submitted to and approved, in writing, by the local planning authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. It shall also include any plan (a "long-term monitoring and maintenance plan") for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification plan, and for the reporting of this to the local planning authority.

Reason: To protect the environment and prevent harm to human health by ensuring that the remediated site has been reclaimed in an appropriate standard in accordance with Arun District Local Plan policy GEN7.

- 24 At least 10% of the energy supply of the development shall be secured from decentralised and renewable or low-carbon energy sources or equivalent fabric first standards that would secure a 10% reduction in energy use. No development above damp proof course (DPC) level shall take place unless and until details and a timetable of how this is to be achieved, including details of physical works on site, shall be submitted to and approved in writing by the local planning authority. The approved details shall be implemented in accordance with the approved timetable and retained as operational thereafter, unless otherwise agreed in writing by the local planning authority.

Reason: In order to seek to achieve high levels of energy efficiency in accordance with the aims of the NPPF.

- 25 Notwithstanding the provisions of Part 1 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking or re-enacting this Order) no extensions to the dwelling houses under Schedule 2, Part 1, Class A, A.1 (g) shall be constructed unless permission is granted by the Local Planning Authority on an application in that behalf.

Reason: To maintain adequate private amenity space in accordance with policy GEN7 of the Arun District Local Plan.

INFORMATIVE: Section 278 Agreement of the 1980 Highways Act - Works within the Highway

The application is advised to enter into a legal agreement with West Sussex County Council, as Highway Authority, to cover the off-site highway works. The applicant is requested to contact The Implementation Team Leader (01243 642105) to commence this process. The applicant is advised that it is an offence to undertake any works within the highway prior to the agreement being in place.

INFORMATIVE: Section 59 of the 1980 Highways Act - Extra-ordinary Traffic

The applicant is advised to enter into a Section 59 Agreement under the 1980 Highways Act, to cover the increase in extraordinary traffic that would result from construction vehicles and to enable the recovery of costs of any potential damage that may result to the public highway as a direct consequence of the construction traffic. The applicant is advised to contact the Asset Management Officer (01243 642105) in order to commence this process.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal

against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

Neil Crowther
Group Head of Planning

Case Officer: Mr D Easton

Date of Decision:

30 June 2017

Arun District Council
The Arun Civic Centre
Maltravers Road
Littlehampton
West Sussex BN17 5LF

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the public highway (including the placing of skips on highway land).
