Dear Sir/Madam

I have recently received a letter from Redrow in relation to the above planning application.

My views have not changed due the small changes that they have made to the layout and my reasons for the application to be rejected remain the same, which I have list below.

- 1) This will do nothing to help with the current climate emergency
- 2) The local roads are are struggling to cope with the current level of traffic and even though this application on it's own does not create large volumes of additional traffic, this together with all the other current house building will create far to much traffic for the local roads can cope with.
- 3) The local Schools are full and this will lead to more journeys for children to be taken to schools outside of the local area.
- 4) The local doctors are full and getting appointment is not easy.
- 5) This is also one of the few green spaces between Angmering and Worthing and will have adverse effect on the local area.

Regards

Neil Parrish
