Dear Madam,

I note that the Parish Council have objected to the above application on the basis of there being no time scale given. The agent confirmed the length of time the temporary use would be required in an e-mail dated 21- 01-2019 , scanned as planning correspondence, which is available to view on our web site. This clarifies that It is anticipated that the temporary permission will run for a three year period, although there is some uncertainty with this due to the limited information with regard to the programming of the A259 at this time. The Design and Access Statement submitted with the application states that the proposal seeks the provision of a temporary car park in order to provide 67 car parking spaces. These additional proposed spaces will act as a substitute for the proposed parking area to the south (which provides 51 no. spaces) whilst works on the A259 take place.

Given the above clarification of the length of time requested I would be grateful if your committee could re-consider the proposal in the light of this additional information. Please can you advise of the date of your next meeting.

Regards
Anita Gardner
