This application may affect the setting of a listed building & falls within Strategic Site SD9, CIL Zone 1 (Zero Rated) |
| <b>RECOMMENDATION:</b> | No objection                                                                                                                                                                                                                                                                                                                                    |

Dear Michael

Thank you for consulting us.

The LLFA are satisfied that these proposals, based upon the modelling contained within the Flood Risk Assessment for Angmering Flood Alleviation Scheme V1.0 and that the proposed culvert design is consistent with previous discussions with Barrett David Wilson and their consultants, will not increase flood risk.

We support this scheme for this culvert as opposed to the previously proposed free-standing bridge (A/110/20/RES).

Kind Regards

**Kevin Brook**  
**Flood Risk Management Team**
