

Hi Michael,

I have issued a separate WeTransfer to issue you with the missing / updated drawings to be absolutely accurate with the information. Some of the revisions are currently higher than that originally recorded and some drawings were missing e.g. sheet 3 of 3 etc.

I have added some sub-titles as it was tricky to review the long list so have split into drawings, documents, calculations for ease where appropriate. You can of course remove this and have one long list for the discharge but just helped me run through the documents. I have also ensured the list is in numerical order in terms of reference for ease of reference also.

Please see below wording as follows:
