Dear Arun Planning,

I would like to Support the application, A/189/20/PL. The Resourceful Squirrel has been an excellent addition to Angmering's portfolio of independent businesses. At current times it is important to have social

distancing and some outdoor seating will be welcome by many customers, especially as Spring approaches. The application states that chairs and tables will be removed outside licensing hours. This application would seem to comply with recent government thinking for expanding seating outdoors. The canopy would offer customers some protection in inclement weather.
