Subject: A/193/20/PL - Addition to Objection already submitted

Dear Anita

I wish to add the below picture to my submitted objection to this application.

This picture shows the site as it was in late 2020 before severe tree work was undertaken.

This further evidences the effect of any house construction on this site and how dominant such a structure would appear.

In addition the application shows an in/out drive which would mean the removal of large parts of the boundary wall and adjacent vegetation.

My apologies for sending this directly to you but unfortunately inspite of a number of attempts I could not get the picture to be part of the online comment submission

Regards

Steven Mountain
