Hi Charlotte

Thank you for your email.

I shall re-name the file so it is clear for who ever. . I would have thought who ever reads the "drawings" would be able to work it out anyway, being that they wish to inspect the engineering design drawing. but i will rename the file for you.

The scale is fully under stood, its the area you wish covereds is in question, eg you "could" require a scale of 1:1250 for the whole of the south of England, so what area or how many blocks of Angmering do you require?

Best Regards

A Willett

Dear Mr Willett,

Thank you for your email and apologies for the delay.

It is the Location plan we require and that should be at a scale of 1:1250 or for more rural sites 1:2500.

Also, with regard to your other email relating to the elevations. They seem to be called 'wall 1' or 'wall B' on the printed out plans, would it be helpful for me to post a hard copy back to you for you to amend by hand and return? If so please just let me know.

I hope this of assistance.

Many Thanks

Charlotte

Hi Charlotte can you let me know the area to be covered by the block plan. When ordering one it asks how many hectares. The scale doesn't indicate the area you need to see. I assume you need a larger area than the sampler block plan to see what is further afield?

Dear Mr Willett,

Apologies for the delay in my response.

I have printed off the documents you have emailed and unfortunately there are a couple of amendments.

We require a Location plan, this would look similar to the submitted Block plan but would be at a scale of 1:1250.

Also, we would ask you label the submitted elevations as to whether they are rear/side/front elevations.

If you require any assistance please do not hesitate to contact me.

Many Thanks

Charlotte

Dear Mrs Burrows
Thank you for your email

I have attached new updated drawings that show all that you ask (i think)
The block diagram is the one accepted for a Cert of lawfulness application the other month, should be ok?
The dimension to boundary you ask to be shown is actually shown on the detailed site plan, where a lot of dimensions are shown, far more than you'll ever need.
Also I have included the manufacturer's design drawings of the building and one photo.

Let me know what tweaking you need.

Regards

A Willett
