Dear Mr Cooper,

Apologies for this incident.

The application seeks to remove 1No. 10m bough, the works therefore will remove the bough 10m from the end of the bough, towards the tree.

Please do not hesitate to contact me with any further inquiries.

Kind regards,

Z Denton

Mr Denton

I rang into your office and spoke to you college, Mrs Grieves and understand that you are looking after this case.

Two yellow notices appeared on our gates yesterday to notify of the removal of a bow of a tree with a TPO on it in our property (although the bow in question overhangs a neighbours garden).

We did not make this application and it should not be in our name – it will have been made by the owners of Mulberry House, Mulberry Hollow. This is not correct – I have removed the yellow notices and this application should correctly bear the name of the applicant...I am not prepared to carry the risk of incorrect tree surgery to a TPO tree and the liability that attaches.

We are unlikely to contest this application, although would like to know how far down the limb the branch is being cut. When we have submitted applications of this nature before, we have been required to provide a photograph and an indication of the cut line. I would like to see this before we are able to support this application.

I look forward to hearing from you.

Best,

Justin Cooper
