Good morning,

I am writing to apply for permission to cut back the overhanging branches of the Willow tree in the back garden of number 4 Orme Cottages, Arundel Road, Angmering, which is affecting the Communal Garden at St. Margaret's Court, this would be at our expense.

I am concerned, as our the resident's, that the overhanging branches have extended over the boundary of St. Margaret's Court and could break if there were high winds. Additionally, the branches are blocking out natural light and cause irritation for people with allergies, when in bloom. The Communal garden here is used daily during the Spring, Summer and Autumn, so it would be appreciated if permission could be given to cut back the branches overhanging our side.

Please see comments below from our Tree Surgeon, details are also attached, including photos of the tree.

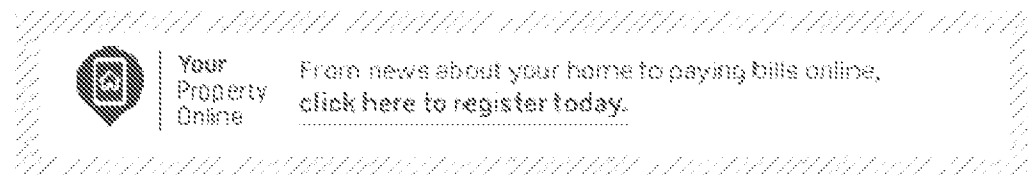

Yours faithfully

Paul Kimber

Hi Paul,

Please find quotation attached as discussed.

It may be worth approaching the tree owner's to see whether they have any plans to undertake felling or pruning before a notice of intent is submitted.

Other than felling the tree entirely, severing ivy and removing selected low branches to raise the crown would make the most difference to the garden at St. Margaret's.

Kind regards,

Jonathan
