Dear Sirs

Further to my reply below, with attachments, I now have pleasure in submitting the Heritage Statement that you have requested.

We have said within the application document what alterations/schedule of works we are proposing and how we intend to make them and this is supported by the enclosed document so would respectfully request that the need for a separate method statement and schedule works is not really needed.

Please can you confirm that the enclosed is sufficient for you to now validate the application, as you have already validated the planning application, many thanks

Yours faithfully

David Craddock
