Subject: TPO Application - A/213/17/T Land at West Drive Angmering
Attachments: Griffiths West Drive Angmering DAA TL 01 TPO app.pdf

Good afternoon Zac

Further to my telephone message this afternoon at 16.30pm please find attached a map showing the correct location of the group of self-set Elms marked as G1 in our TPO application schedule. The plan supplied with the application shows G1 to be a group of 'off-site' Silver Birch – evidently not the trees to which this application applies. The application to fell G1 relates to a small group of small self-set Elms marked as adjacent to tree nos 5-9.

If perchance, you have already visited the site and have drafted a reason for refusal based on this discrepancy, then please accept this email as confirmation of our wish to withdraw that part of the application that relates to the Elms marked as G1.

Hope all this makes sense but please do call me on the numbers below if you wish to discuss.

Kind regards

David Archer
