Hi Amy

Amended planning case ref on this consultation, (had incorrectly two case refs showing)everything else unchanged.

Regards

Sue

Response to Planning Application

From: Arun District Council Leisure & Greenspace

Date: 14/12/2021

Application ref: A/227/21/OUT

Description: Outline application with all matters reserved (except access) for the erection of 7 no. residential dwellings, vehicular & pedestrian access, with all matters reserved except for access. This application is a Departure from the Development Plan (Countryside).

Location: Wilmington Arundel Road Angmering BN16 4ET

Determining Authority: Arun DC

Summary recommendation: Recommend no landscape objection to the proposals within this A/227/21/OUT application.

Comments

Relevant landscape designations

This proposed development site is within a garden setting and predominantly residential area. Dense trees and hedging surround the site screening it entirely from the road.

The proposed site is to the south of the A27 and north of Angmering village. The site is accessed from Arundel Road with the existing (to be retained) Wilmington House dwelling.

There are no Special Protection Area (SPA), Ramsar or Site of Specific Scientific Interest associated with this site.

South Downs National Park to the north

Response

This proposal for this site is an outline application with all matters reserved (except access) for the erection of 7 no. residential dwellings, vehicular & pedestrian access, with all matters reserved except for access. This application is a Departure from the Development Plan (Countryside).

As this is a proposal for a smaller development of up to 7 dwellings there will be no requirement for POS or play on site. The proposals would appear to present a scheme of well-spaced dwellings suitable for the size of the plot.

This site does not form part of any strategic allocation identified for development in ADCs adopted Local Plan 2011-2031 (July 2018) It would therefore be assumed that CIL contributions would be sought accordingly, these will need to include contributions towards playing pitches, sport, leisure, pools, halls and ancillary facilities as set out in ADC SPD Open Space, Playing Pitches, Indoor and Built Sports Facilities January 2020.

There is a requirement for any scheme, in accordance with policy to be of High Quality Design, infill development should not compromise this requirement. The emerging landscape design aims should be:

- To design and implement a scheme that reflects and incorporates elements of its surroundings and enhances the atmosphere of local distinctiveness.
- To create a visually pleasing and interesting landscape for owners and visitors to the development.
- To enhance the landscape quality of the site when viewed from the surrounding area.
- To provide a planting scheme that includes native species to blend with the surrounding location, enhance biodiversity and create enhanced wildlife corridor opportunity.
- To provide a sense of flow and cohesion between the different elements of the landscape, buildings, open areas and surrounding environment.

Forming part of any decision consideration or as a minimum reserved matters a full landscape scheme should be submitted for approval, detailing species choice, position, densities and size at time of planting. This should be plotted in plan and list form and in relation to the trees and vegetation to be retained in the locale, so that a clear picture of the proposals can be seen. These details are required to assure the adjacent land setting is maintained, the setting is uncompromised and the proposals are appropriate to its setting.. The landscape scheme should maximise the biodiversity of the site with the inclusion of native species and the retention of a variety of habitats.

Any considered tree removal from this site should be agreed with Arun District Councils Tree Officer. Before construction, a tree protection scheme must be in place for any retained trees including trees whose root protection areas fall within the construction zone from neighbouring land. Any agreed removed trees should be mitigated for allowing for inclusion of native species for biodiversity purposes and fitting to the setting.

Impact

The potential impact of the proposals would blend into the location with the implementation of a robust landscape scheme to support this. The location of this proposed development would not have impact on street scene in this location because of the access and the existing green infrastructure.

Mitigation/requirements

A full landscape scheme will need to be submitted for approval, or conditioned as part of any approval.

In line with Policy ENV DM5 of the Arun District Local Plan information on Biodiversity Net Gain will need to be provided. Further information would be required demonstrating what will be included within the scheme and what level of net gain will be created.

Recommendation/Conclusion

I would recommend **no landscape objection** to the proposals, subject to the submission for approval of a detailed landscape scheme as above
