Dear Sir/Madam

I endorse the above planning application as above. I feel this will make a better feel and look of the BMW site. I hope it goes ahead.

I also would like it noted that a bigger impression to improving the look of the site, and a bigger environmental benefit would to have trees planted on the grass area that is the Highways Authority responsibility which surrounds the site to the road.

I have raised this issue with the Highways Agency case ref 3053257, but was advised informally that there is no budget for new trees, which seems madness with COP26 just ending.

I have also raised the problem with the local councillor Debroah Urquhart.

Is there any pressure yourselves can bring to bear for planting of trees on this grass border?

Kind Regards

Steve Arnell
