Dear Sir,

I understand this is the planning application for BMW to soft landscape at their site in Rustington. I also understand that this should have been carried out many years ago when the site was built and I agree with the application.

Please can you let me know when the highways department will be planting trees on the grass area next to the main road. Many large pine trees were removed in this area when the garage was built and these need replacing along with the planting of other shrubs and trees.

I look forward to hearing from you.

Kind regards

Cheryl English

Subject: A/234/21/DOC BMW Chandlers

Dear Sir/Madam

I endorse the above planning application as above. I feel this will make a better feel and look of the BMW site. I hope it goes ahead.

I also would like it noted that a bigger impression to improving the look of the site, and a bigger environmental benefit would to have trees planted on the grass area that is the Highways Authority responsibility which surrounds the site to the road.

I have raised this issue with the Highways Agency case ref 3053257, but was advised informally that there is no budget for new trees, which seems madness with COP26 just ending.

I have also raised the problem with the local councillor Debroah Urquhart.

Is there any pressure yourselves can bring to bear for planting of trees on this grass border?

Kind Regards
