Subject: Planning objection

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Dear David,

I am writing to you to advise of my objection to the following planning matters involving Dappers Lane in Angmering:

1. Application A/248/21/PL seeks approval for variation of Condition 4 which forms part of that Outline approval.

This application implies that the original submission for a mechanised barrier is unchanged.

2. Application A/256/21/RES seeks approval for reserved matters following Outline permission for up to 525 new dwellings granted via Application A/40/18/OUT

This application shows a new plan for the access route with an ANPR camera and no physical barrier.

I'm not sure if you are aware or not of the current highly dangerous issue we have in Dappers Lane, Angmering with vehicles passing illegally under the A27 heading south down Dappers Lane, sometimes at high speed and with complete disregard for pedestrians, cyclists and horse riders. If this planning amendment is approved then this will increase the amount of illegal flowing traffic onto Dappers Lane creating an even more dangerous situation, which will one day result in serious injury or a fatality.

The fact an ANPR camera will be installed instead of a physical barrier is simply not good enough because drivers will simply ignore this and take the risk. We have been told by Sussex Police that if an ANPR camera is to be fitted at the A27 underpass then the police will not have the funding / time to monitor and police this, which makes it totally pointless. So the suggestion of the barrier being removed and replaced with an ANPR camera just seems crazy as we already know it will not be policed, let alone maintained if / when it breaks or become vandalised.

Please take this email as my sincere objection to the physical barrier being removed and replaced with an ANPR camera.

Regards,
Cristie O'Leary
