Subject: Oval site

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

I would like to express my objection to this plan going ahead. I am a resident just off of Dappers Lane and the village is being destroyed by all these new buildings going up and the rapidly declining wildlife that surrounds us. We are living in times where most people should be aware of climate change and the need to preserve our countryside and biodiversity. I understand that we need some new houses but to squeeze them in and destroy every living thing in the process just to fit more in at a huge profit for very few people is just pure greed. Stick to the original plan and leave the rest of our countryside alone. Dear Supporters

OVAL SITE: PLEASE OBJECT ASAP TO RYDON HOMES ATTEMPT TO EXTEND AREA OF HOUSING

A/248/21/PL

The Oval site developers are trying to extend the built area of their site beyond that approved in the outline planning permission. The reason given is that in the original site plan the houses are too crowded. As Angmering Parish Council have objected stating that the outline approval only allowed for up to 525 houses. If they were too crowded in the original submission then they should build fewer houses! It is hard to believe that the developers weren't aware of this crowding when they submitted their outline application, but didn't think it would go through if houses were planned over a larger area and so close to the A27.

Angmering Parish Council need Angmering residents to show their support for their objection. Although the date for comments was 17 January it is not too late to submit objections as I have been informed they will still be read. Plus, because APC have objected there will have to be a Planning Meeting which also extends the time for objections. So letters or emails, however brief, are very important in fighting this proposal.

Below are suggested reasons to oppose the proposal, please feel free to cut and paste if you are short of time.

Reasons for objection

1. destruction of more wildlife habitat eg hedgehogs, which are classed as 'vulnerable to extinction'
2. destruction of more pasture land and the impact on soil health, insect populations, wildlife
3. increase in flooding problems which the village has always had problems with and is getting worse due to all the building with unsustainable materials and lack of trees.

Regards and thank you for your time

Mrs Porter Wendt
