Dear Mr Easton,

I am extremely concerned about the revised plans submitted by the developer and wish to lodge my objections.

Not only will the development impact on Angmering village and its ability to provide school places and support health needs but the siting so close to the A27 will bring noise and vehicle pollution very close to the residents. The impact on children's health in particular could be severe.

The Noise Pollution report on the website suggests noise could be mitigated by the siting of garages, gardens etc but there is no mention of the fact that most people don't spend all their time indoors with the windows and doors closed!

The air quality will still be governed by distance from the A27 and less by the siting of buildings.

The loss of more wildlife habitats, the destruction of more pasture land and the increase in surface water runoff affecting the village are also of great concern to me.

David Silver
