Subject: FW: A/248/21/PL

Dear David,

Thank you for this opportunity to comment further.

The northern flank in question will be loud but mitigation measures have been agreed. The proposed new layout brings noise sensitive receptors closer to the noisy A27. Although the acoustic consultant states that this represents only an imperceptible increase in the dB level, this is still not desirable. Nevertheless, it is unlikely that this would be enough to sustain an objection to the development as presented in a planning appeal. My comments are provided in this instance for information and as a matter of record.

Should I be able to provide any further assistance then please do not hesitate in contacting me.

Kind regards

Carol

Hi Carol,

We have received the attached response in regards to you original consultation response. Are you able to review upon your return to the office?

Many thanks,
David
