RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	N/A

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

This proposal is for the installation of 11 solar lamp columns along the path through Mayflower Park. The site is located within Mayflower Park, away from the maintained highway and as such, not within a position that could pose a hazard to highway users.

It should be noted that the proposed lamp columns run along a path also maintained as Public Footpath no. 2127. If any works to the Public Right of Way (PROW) are proposed, the LPA should consult WSCC PROW for comment.

In conclusion, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 111), and that there are no transport grounds to resist the proposal.
