Subject: RE: Planning Consultation on: A/25/18/DOC

Comments:

- Please supply winter ground water levels.
- Please move the manhole which is currently underneath of the Sand School to be outside of the Sand School.
- It is noted that the porosity used in drainage calculations is 0.4, please adjust this to 0.3 or provide robust evidence that 0.4 will be achieved.
- Specify all levels on manholes.
- Provide construction details of the sand school, will it drain into the system?

We await amendments from the applicant.

Regards,

Laura Gibbons
