Good afternoon

Objection: OWPC45073

I would like to inform you that I rigorously obtain to the proposed planning ref A26/8/21/PL.

Secondly I would like to request that ADC Planning and Environmental Health Departments make visits to the site in question , as they are clearly breaking the terms of the application and the impacts upon the residential area.

They have this afternoon placed a 40-foot shipping container next to my fence.

I have informed your office on many occasions by telephone and email, of the antics, going on in this yard in question.

I notice on ADC website a request for planning if people wish to celebrate the queens' year, but it appears no planning required to operate a transport business next to residential properties, really?? How can this be considered correct?

According to the information provided to my from ADC, no planning has been sort since 1998, so why are these people operating without planning?

I look forward to replies and action.

Regards

Philip Neale
