Dear Anita,

**APPLICATION FOR THE APPROVAL OF RESERVED MATTERS (APPLICATION REFERENCE A/26/21/RES)
AT LAND SOUTH WEST OF BROOK LANE AND SOUTH OF A259, RUSTINGTON**

We act on behalf of Store Property Investments Ltd ('Store Property' or 'the Applicant') and write in relation to reserved matters application A/26/21/RES at the above site for:

"Approval of reserved matters following outline consent for appearance, landscaping, layout and scale for the demolition of existing buildings on site and erection of a mixed use development comprising of 90 No. residential dwellings and a care home and ancillary facilities including railway crossing together with associated access, car parking and landscaping. This application also lies within the parishes of Rustington and Littlehampton".

Following our previous correspondence dated 26th May 2021, this letter has been prepared and submitted alongside updated plans which respond to comments received from yourself, West Sussex County Council Highways, West Sussex County Council Public Right of Way officer and Arun District Council Greenspace officer

The following plans are submitted alongside this cover letter:

- 3670-BRK-SRA-XX-XX-DR-A-04-010 Rev P03 Proposed Site Plan
- 3670-BRK-SRA-XX-XX-DR-A-04-011 Re P02 Proposed Site Levels

Additional comments have been received with regards to providing a drainage strategy within the reserved matters application. We wish to reiterate that drainage details for the proposals are controlled by way of condition 7 of the outline permission allowed at appeal under reference APP/C3810/W/17/3185128 (following the refusal of outline application A/44/17/OUT). The trigger for the drainage condition is prior to occupation, which will in due course be adhered to. It is not a requirement of the extant permission that these details are provided with or before the reserved matters.

The development has been designed in the knowledge that an appropriate surface water drainage scheme will be required. It is commonplace for detailed drainage schemes to follow the approval of reserved matters applications. The proposed layout is fully compliant with the parameters of the outline application and broadly similar to the indicative layout that formed the basis of the drainage strategy that was submitted with the application. On this basis it is clear that the detail of the drainage strategy can be reviewed and approved through the discharge of conditions process at the appropriate time.. In the meantime we'd be grateful to receive your confirmation this matter is closed out for reserved matters application A/26/21/RES.

Responses to Officer Comments

We have set out below your comment with regards to the layout of the proposed scheme alongside our response.

"I have taken the opportunity to discuss the layout with other officers and would appreciate further thought being given to the potential for the units to the north of the LAP open space plots 38-43 to front onto the area, rather than rear/side elevations. Would it possible to combine this LAP area with that to the east to allow some adjustment to plot orientation or to alter the position of some of the units to the west of these units?"

The layouts and orientations of residential dwelling Plots 38-43, situated to the south of the central LAP have been amended so the dwellings front onto the LAP to afford an element of natural surveillance. Please refer to the following plans submitted for further information:

- Proposed Site Plan (drawing no. 3670-BRK-SRA-XX-XX-DR-A-04-010 Rev P03);
- Block Plan (drawing no. 3670-BRK-SRA-XX-XX-DR-A-04-015 Rev P02); and
- Housing Plan (drawing no. 3670-BRK-SRA-XX-XX-DR-A-04-020 Rev P04).

Responses to Consultee Comments

West Sussex County Council – Highways

We have set out the comments provided by the County Council Highway Officer alongside our response below each extract.

Visitor Parking

“Visitor parking is poorly spread though the development with two main concentrations at the east and west of the scheme and should be provided more evenly through the site.”

The layout of the visitor parking provision has been amended to position 4 no. visitor car parking spaces between the two main concentrations at the east and west of the scheme so to contribute towards a more even distribution across the site.

We also understand Highways are seeking further details of how rights for cyclists would be achieved and provision considered in line with LTN 1/20. Please refer to an enclosed letter prepared by the applicants transport consultant Mayer Brown for further information.

West Sussex Country Council – Public Rights of Way (PRoW)

The public rights of way officer commented that the PRoW Footpath 2160 on the proposed plans does not follow the legal line as shown on the Definitive map. The design team has reviewed the Definitive map and have amended the layout to the northern boundary around PRoW Footpath 2160. This can be viewed in the below updated plans submitted alongside our letter:

- Proposed Site Plan (drawing no. 3670-BRK-SRA-XX-XX-DR-A-04-010 Rev P03);
- Block Plan (drawing no. 3670-BRK-SRA-XX-XX-DR-A-04-015 Rev P02);
- Illustrative Masterplan (drawing no. 176_801_P3);
- Landscape Plan (drawing no. 176-006_P3); and
- Planting Plan (drawing no. 176-205_P3).

Greenspace Officer

The design team has considered the consultation response provided by the LPA's Greenspace officer. In respect of comments received on the planting schedule and quantities of planting, the revised landscaping information submitted (drawing no. 176-SCH-001_P3) to confirm the actual plant quantities. Furthermore, the associated Planting Plans detail the proposed planting mix in the

locations of soft landscaping proposed (drawing nos. 176-201_P3, 176-202_P3, 176-203_P3, 176-204_P3, 176-205_P3 and 176-206_P3).

In addition, comments were received on the layout of the garden areas associated with the care home and their appropriateness. For clarity, the development has been designed with the future residents, visitors and care home staff in mind. The scheme submitted shows that the garden is fenced off from the pond area, and there is a levels difference between these two parts of the site which we trust addresses concerns. It is considered that areas of seating and furniture within the garden would be provided by the care home operator.

The DAS (Rev B) has been updated so to ensure the planting shown in the DAS aligns with the revised Plant Schedule (drawing no. 176-SCH-001_P3). The location of the play features and the proposed play equipment can be found on pages 34 and 36 respectfully. The detailing of the proposed pay equipment (LEAP & LAP), including their layout and positioning, are set out in the revised proposed Landscape Plans (drawing nos. 176-002_P3, 176-003_P3, 176-004_P3, 176-005_P3, 176-006_P3 and 176-007_P3).

Your Greenspace colleagues queried the use of crushed/gravel pathways and that this material may cause access and maintenance issues. In response to this comment the areas previously proposed as Crushed/Gravel pathways within the Landscape Plan drawing no. 176-003_P3 have been updated to Asphalt to allow ease of access to the proposed main play area to the west of the application site. Pathways and cycle routes through the site shall be accessible all year round and comprised of either asphalt or high-quality concrete blocks and shall therefore not pose maintenance issues.

Lastly further details of the LEAP are shown on the plans submitted identifying the development will provide high quality play facilities for users. In addition, the balancing item proposed has been relocated away from the pathway and a hard wood bin is proposed on the eastern entrance of the LEAP (that most likely to be used by residents).

List of Updated Plan References
