Hello Juan,

Further to the receipt of the amended site plan for planning application A/26/21/RES received from Oliver Neave, as shown below

please note that I am happy that Public Right of Way, FP2159 will remain a footpath, separate to the road and internal cycle routes, with well-placed signs to cyclists to dismount where there are connections.

To the western end of the site, I welcome the cycle path running up to the site boundary allowing for possible connection at a future time, should it become possible to upgrade the footpath to a bridleway.

General comments regards surfacing, structures, drainage and the widths of both FP2159 and FP2160 from my first response still stand.

Regards,

Donna Trethewey
Planning & Communities Officer, Public Rights of Way
