Subject: Application Ref: A/26/21/RES - Updated Submission (Email No.8)

Hi Anita

I have considered the detail submitted within the 176-G101-P4 Landscape Strategy (DAS Input) document.

The amends that have been worked through in response to my consultation comments of 01/09/2021 and 03/09/2021 where revisions have been implemented re surfacing, access and detail for the LAP and LEAP play areas have provided positive changes and improvements.

I have no further comments on the revised plans, which were submitted to address PROW and highway concerns. I see no adverse impact regarding the change in the position of the footpath in relation to one of the LAPS.

I would offer and recommend support of the detail submitted under the A/26/21/RES - Updated Submission (Email No.8) application.

Kind regards

Sue

Hi Sue,

Members agreed today at the planning meeting to delegate the decision on the above application to officers so that we can take your comments on revised plans, which were submitted to address PROW and highway concerns, into account prior to determination. I attach the revised landscape strategy. The revised plans should be available to view on our web site.

Can you let me know within the next 2 weeks whether these amended details are acceptable to you? The main change is the position of the footpath in relation to one of the LAPS.

Thanks

Anita
