Morning Harry

Following on from your call with my dad, I can confirm that the hard standing area will be constructed using porous/permeable material.

On the block plan I gave the dimensions of the front garden, but just to confirm, it will not be the entire area as the path leading from the front door will remain in situ.
I estimate the hard standing area would be in the region of 26sq metres.

If you do need any further clarification please do contact my Dad on 07806 684875.

I'm quite happy to use materials that you deem necessary in order for the application to be approved.

Many thanks for your help

Look forward to hearing from you.
Sadie Sheils
