TREE REPORT

Re: Barbara Brathwaite - Church Farm House, Rectory Lane, Angmering. BN16 4JU.

Brathwaite Report:

Large Sycamore (*Acer pseudoplatanus*)

Approximately 40 feet tall with multiple stems and a widespread canopy. The tree is showing signs of stress including severe die back, especially on the South East side of the crown. This has caused the tree to become misshapen and unbalanced in its growth.

Due to the close proximity of a garage roof as well as a neighboring property and busy driveway, the falling deadwood has become hazardous to vehicles and pedestrian traffic.

recommendation: full dismantle.

This is a visual report on the trees current situation; I accept no responsibility for the trees.

Regards,

Nick Wilson.
