

Planning Officer: Andrew Wood

Planning Application Ref: A/31/17/TC

Location: Conyers, Church Road, Angmering

Description of works: Crown reduce Pittosporum, Laburnum & Laurel

Reasons Given: Good husbandry and to improve light percolation to property.

Comments:

Pittosporum

- A small evergreen tree in a small garden which from time to time will need to be kept under control by pruning.

Laurels

- A small evergreen shrubby multi-stemmed tree in a small garden which from time to time will need to be kept under control by pruning.

Laburnum

- A small tree which has been stunted and is dominated by the neighbours trees.

Conclusions:

- None of these plants makes any real impact in the landscape or particularly enhances the Conservation Area.
- They are not subjects that are suitable for protecting by means of a TPO.

Recommendations:

- I raise **No Objection** to the works that have been applied for.
