Hello Anita,

I haven't received anything yet. My advice is this:

I agree with the conclusions of the heritage desk-based assessment with regard to the potential that this site has to contain archaeological interest. In the circumstances it should be trial trenched ahead of development in order to identify deposits of significance that might be present and to enable the implementation of appropriate measures for their preservation, whether *in-situ* or through further investigation, recording and dissemination of the results. This process would be best secured following the imposition of standard archaeology condition ARC1.

James Kenny, Archaeology adviser, 24/04/2018

Best wishes,

James

Dear James,

I am sorry I didn't get back to you sooner. It is closing for Committee this week and I have been focused on report writing. Thanks for letting me know the history I have now sent through a consultation.

Regards

Anita

Dear Anita,

A member of the public has pointed out to me that this application might have archaeological implications – and having had a quick look it seems to be similar to a preapp that I gave some advice on in December (PAA/209/17/). Can you get admin to send me a consultation – or shall I just send you my thoughts (I think it merits an archaeological evaluation ahead of development, secured after a standard condition)?

Best wishes,

James
