Good afternoon Stephen,

I hope you are well! ☺! Thanks for the info. on Travel Plans, I'll take a look...

Are you able to confirm if those two big applications we spoke about have been uploaded onto your planning portal yet? I did have a look last week but couldn't seem to find them...

If you have the two TA's would it be possible for you to send them over to me?

Also, do have a plan showing the cycle route you refer to? This is certainly something we can consider providing...

Anita,
Please find comments below and standard comments/guidelines attached on the Travel Plan that have been provided by the WSCC Travel Plan officer

Essentially this one needs to start from scratch following our policy and my model comments (both attached).

We would consider this site to be in a rural location and therefore the target would be to achieve 12-hour vehicle trip rate that is 10% lower than predicted in the TA. This should be presented as numbers of trips within the TP.

Also, our Walking & Cycling Strategy includes an aspiration to provide an off-carriageway cycle connection from Angmering village to the existing facility on the A27 (scheme ID = 39). It may be possible to achieve this (at least in part) if a route through the site could be provided.

Regards

Stephen
