Please could you ensure that the six appendices referred to in the 'Drainage and Maintenance Statement' dated on ADC's website at 21/03/2018 are made available for the public to view.

Thanks,

Michael

In reviewing the above Application I note that the document 'Drainage and Maintenance Statement' dated on your system on 21/03/2018 refers to six appendices which I assume contain important information. They do not appear to be available either within this document or elsewhere on your system.

Will you please ensure that these appendices are made available in order that I can comment upon this Application in a meaningful way.

Regards

Geoff Gibbs
