Dear Anita

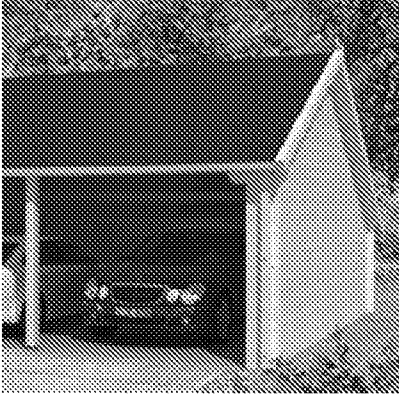

Thank you for discussing this matter today.

We wish to stain the building as per picture, light oak, it is difficult to submit a stain code as we will need to experiment with various stains to find this colour. different wood react differently to stains.

the building comes with dark slate coloured singles. we plan to change these to real slate, looks similar but will be a higher standard of finish.

The building roof design loading of 140 Kg/m square will allow use of real slate. so changing from shingles to slate will be acceptable.

Log Cabin Open Barn - Nysse - Tuin

www.tuin.co.uk

A Log cabin garage, the Log Cabin Open Barn - Nysse in the style of a traditional field barn, manufactured using thick 70mm interlocking wall logs.

We have arranged for a special size building based on this design to be supplied to us

I look forward to your reply

Regards

A Willett
