Dear Arun Council.

At this time we would like to make our feelings known , because of the false remarks and comments being made are factually wrong and incorrect, it would appear we are being victimised for the being traveling showmen as many people have great prejudice against any traveling minority society. We have successfully been on the site for 2 years with no safety issue on the rd so what we are doing at present surely works . Why is the local Authority not working with us to help resolve any issues as this traveller based site has no cost to the council unlike many others in the area. i feel as a social minority group we are being victimised and discriminated against with these ludicrous remarks and comments . We have gone to lots of cost employing a traffic planning consultant to insure the site was in compliance with road safety and all logistic of the site work .i.e trailer turning, technical data etc.

We are always happy to work with the authority and if required have suitable restrictions agreed with our planning for the site. Also we would be prepared to maintain hedge and tree heights to always keep good visibility.

We hope you understands this creates us a lot of stress and concerns to how we can continue our work and lifestyle.

Many Thanks

Mr Burrell
