Hi Ross,

Thanks for this. Today I have spoken with the Transport Consultant at Motion involved with the application.

I have agreed that I will go out on site and provide you with an additional response.

It's not likely that I will be out and about this week, so my visit will likely take place W/C 5th March.

I hope, this fits in with any deadlines you have for the application. if it does not please let me know.

Kind Regards

Ian Hayward

Ian Hayward | Senior Technician | Monitoring and Records | Planning Services | Economy, Planning and Place Directorate

Dear Ian,

I'm sorry to bother you, but the applicant for the above has contacted me about the WSCC comments on this application (attached).

I have emailed him and advised I would ask whether you would visit again, given his point about cutting back. I have also attached a photograph I took recently. My general comments are also below.

I would be grateful if you would take another look at this one please and perhaps visit the site. Please note that I have my own reservations on this proposal on policy grounds, although I have not reached a final view on the matter.

Many thanks,

Ross

Dear Mr Burrell,

Thank you for your email.

I will contact WSCC and ask whether it considers a further visit to this site is necessary. On my recent site visit I noted the hedging had been cut back, however I also noted that it was still in the same location, albeit perhaps lower in height on the north side of your access point. It therefore still obstructed visibility to some degree.

Apart from vehicle size, the issue here is also general visibility and remains so. The impact of possible hedgerow removal and potentially the tree are also issues.

It is possible that (if permission were to be granted) vehicle type/size could be restricted. However, the key issue here is whether visibility is satisfactory for smaller vehicles too and whether future potentially intensified use of this access is acceptable.

This is not a location where this Council would wish to be an unrestricted storage or other use established, it is an open countryside location where this would be contrary to policy.

I would suggest that you discuss this matter further with your own consultants, Motion, and also try to liaise further with WSCC.

Regards,

Ross

Subject: A/3/18/pl

Dear Mr Leal

I am writing to you regarding my application (A/3/18/pl), my planning consultant has recommended a site visit would be essential from WSCC as the site has changed the hedges have been pruned to also put our boundary fence back, this has changed the visibility etc.

We have been informed that it could be an option to put a restriction on the application for not allowing hgv on the site, we would be more than happy for this as we only use a 4x4 or van to move the trailers that are stored on the site. We also always use a banksman and are happy for that to be a condition of the application.

The visibility to the south what includes shrubs etc is owned by the council off which is cut by the county when required. We have plans to show the verge/hedge doesn't belong to the neighbors land

Many thanks

Mr Burrell
