F.A.O. Strategic Development Team

I wish to make further comment on this application for your consideration.

Following detailed discussion with your planning case officer, I am assured that we share the view that the illustrative layout submitted is unacceptable. We anticipate a revised layout at the Reserved Matters stage which hopefully we can all support and that most importantly from my own position, will avoid direct interference with and adequately respect significant trees we wish to see retained. In that regard, I am pleased to note those trees I recommended be made the subject of a Tree Preservation Order (TPO) have been so.

I am able to support development at the site in principle and can expect to see those trees (subject of an Order) strongly influence a revised layout, on which I anticipate being consulted (as per standard practice).

I am therefore prepared to lift my objection.

Kind regards,

Mark Warwick
