Technical Support Unit on extn. 37711
28th March 2019

Dear Mr Mark Fraser

Development:

The area is currently made up of three car ports. The current depth is insufficient to allow an average vehicle to be fully covered within. It is proposed to extend the structure by three metres and turn it into a garage. The structure itself is in a bad state and needs to be taken down and rebuilt. Pre-planning (PAA/136/18/) advice saw no issues with the proposed extension including the taken down and rebuilding of the existing structure as long as it was rebuilt in a tradition style and in-keeping with the remainder of the property.

Additionally a small glass porch is proposed to the front door. This would protect the original door from further deterioration.

Location:

Grey Barn Rectory Lane Angmering
