Dear Ollie,

Sorry, I ran out of time on Friday to respond to your email. Please see attached comments. We feel a Teams meeting may be beneficial to discuss these so that all parties are certain of what needs to be submitted in response.

I will speak to our Engineer about dates next week. Are you free on any particular days?

Could you also respond to my email of 06/08 about fire hydrants.

Kind Regards

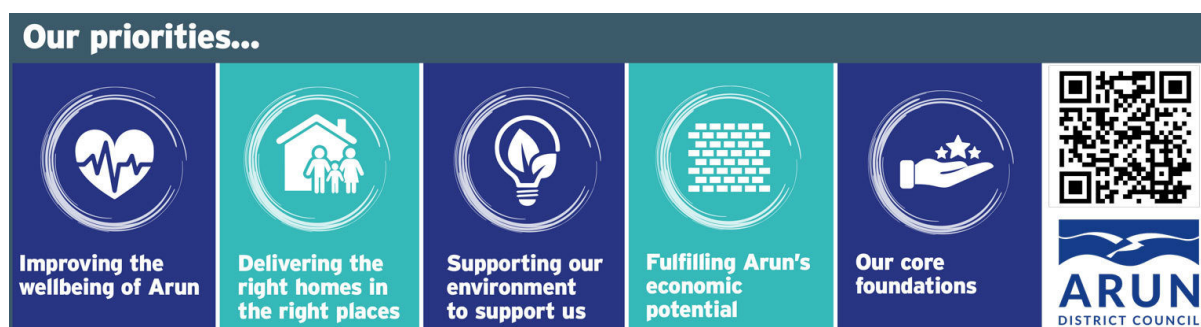

Simon

Good morning Simon, Neil,

I hope you're both well.

Apologies for the further email Simon as I appreciate you have been on leave recently, albeit we are conscious that we are fast approaching the 2<sup>nd</sup> September and do not want to miss the cut-off for the 23<sup>rd</sup> September committee if at all possible.

Could we please politely request that your engineers review as a matter of priority? Our greatest concern is that any delay beyond the September committee will likely mean the works are carried out, as best, during the winter months – albeit the reality is that these would likely be delayed until weather conditions improve. As you will appreciate, we would prefer to avoid extending the uncertainty that residents are facing any longer than is absolutely necessary and so if your engineers could please confirm their current position at the earliest, that would be greatly appreciated.

Kind regards,

Ollie

Hi Simon,

Apologies, I have just noticed that I didn't acknowledge receipt of the below. That's all noted, thank you. Do you know whether your engineers have had chance to review this as yet? We are keen to ensure we make the September committee and so if they do have any queries and/or require any additional information, we would be keen to know this sooner rather than later so that we can provide this in good time for the 2<sup>nd</sup> September cut-off.

I have also asked for confirmation on the fire hydrants approved by A/277/22/DOC and will look to confirm as soon as possible on that front.

Kind regards,

Ollie
