I would just like to comment I am in support of the application.
We were finally able to secure our forever home and get on the property ladder after years of renting due to the shared ownership scheme.
We are very happy here and there is a lovely community on the development.

I would like it noted that when we moved into the property there was trees and hedgerows behind our garden (along our fence line - which I believe marked the edge of the development), which also helped to obscure the unsightly shipping containers of the industrial units behind.
We would often see bats in the summer months flying around and numerous different bird species.
Since then the trees and hedgerows have been removed and a lot of the biodiversity that they brought has gone, including all the bats that we used to see of an evening.

Your views as made above will be considered before the application is determined.
